Riverwood Solutions Named to SupplyChainBrain's 100 Great Supply Chain Partners List

Riverwood Solutions recognized by SupplyChainBrain, one of the industry's most recognized information resources, as a 2011 Great Supply Chain Partner.

MENLO PARK, CA--(Marketwire – July 27, 2011) - [Riverwood Solutions](#), the innovator in [managed supply chain services](#) and operations consulting, today announced that they have been recognized by SupplyChainBrain as a "2011 Great Supply Chain Partner;" a distinction awarded for outstanding contribution and leadership performance in the supply chain industry.

"**SupplyChainBrain's 9th** annual list of **100 Great Supply Chain Partners** is the result of a six-month on-line poll in which supply chain professionals were asked to nominate vendors and service providers whose solutions have made a significant impact on their company's efficiency, customer service and overall supply chain performance," states Brad Berger, President and Publisher of SupplyChainBrain.

"Nominations were received for hundreds of trading partners in every aspect of supply chain management. The 2011 July/August issue of SupplyChainBrain magazine includes the select list of companies who have so impressed our readers that they deserve to be singled out and to be held up as examples for others in the industry. Our compliments to **Riverwood Solutions** on making the final cut of those 100 companies who received the most qualified nominations!" said Brad Berger.

"We are thrilled to be recognized by SupplyChainBrain and its impressive and highly informed readership with this prestigious award," stated Mark Medlen, Vice President of Global Supply Chain Services at Riverwood Solutions. "But we are especially pleased and gratified to have been nominated for this award by our customers, who clearly appreciate the uniqueness of our HOSTSM model and the value that it delivers to OEMs that have become increasingly decoupled from the sources of production in the newly globalized world where outsourced manufacturing has become the predominant production model."

About SupplyChainBrain – www.supplychainbrain.com

SupplyChainBrain, the world's most comprehensive supply chain management information resource, is accessed year round through a wide range of ever evolving multi-media formats by hundreds of thousands of senior level industry executives. In addition to addressing the fundamental principles of supply-chain management, SupplyChainBrain identifies emerging trends, technologies and best practices, forward-thinking ideas and cutting-edge solutions and continues to write and report about these as they evolve and mature.

About Riverwood Solutions

[Riverwood Solutions \(www.rwsops.com\)](http://www.rwsops.com) helps OEMs improve supply chain performance, optimize their operations, and maximize the value of their outsourced relationships. The company provides managed supply chain services and operations consulting to technology product companies on a global basis. The company's proprietary HOSTSM (Hybrid Outsourced Services Team) Model provides highly skilled local resources in China and Mexico to help OEMs manage their supply base and improve supply chain performance without adding fixed costs or internal infrastructure. Headquartered in Menlo Park, CA, Riverwood Solutions designs, implements, and manages global supply chains from its offices in the North America, Europe and Asia.
